

Summer Log Corrections

The border chart was not in the first printing—if the pattern you have includes it, this is the same!

Border →

The border is stitched in diagonal scotch. The chart at right is the top quarter of the border. Use WC163 Plum for all rows. The rows are charted in two colors to easily see them.

Start in the top left corner to get the rhythm of the stitch. Rotate this chart to stitch the other three sides.

An enlargement of the corner is shown here.
